tba

Film Club

monthly after school club all age ranges

Venues tba

For application forms and charges please see the Booking Form on the back of this Newsletter or book on-line at www.winextendedschools.btik.com

Turnover to read some of the highlights from 2009:

Pupils from St Andrew's, Parish Church Junior School, Duppas Junior School and Howard Primary School took part in these workshops which took place in the Drama Studio at St Andrew's High School

Upstage Drama Musical Productions 'The Dreamer' and 'Time Buster'

WIN teamed up with 'Upstage' twice last year to provide pupils from Year 5 to Year 9 with an opportunity to work on their creative skills in drama, dance and singing with week long workshops running from 10 a.m. until 4 p.m. daily.

SINGUP - WIN GOSPEL CHOIR

WIN worked with John Fisher founder of 'We Sing U Sing' providing free after school workshops for every school.

Over 300 pupils from Year 2 to year 8 took part in weekly Gospel workshop for 6 months.

In July they came together for one massed concert at the Fairfield Halls. It was a lively evening with the students performing 20 songs, some well known and others specifically written by John Fisher for the event.

We are delighted that pupils from Parish Church Junior School were so inspired that they have now joined St Andrew's School Gospel Choir and attend the weekly practices on Monday afternoons after school.

WIN SCHOOL COUNCIL

The WIN School council were commended by the Mayor of Croydon, when they presented her with their 'Litter Campaign' in June 2009.

Pictured here are 50 pupils from WIN schools who took part in the 'Big Tidy Up' organised by the WIN School Council. They collected litter from around their schools and local roads meeting up at Duppas Hill even persuading our local councillors Tony Harris and Clare Hilley to join in.

They enjoyed it so much that they have requested another course on movie making!

Family Learning Creative Digital Photography February 2009

12 parents from Howard, Duppas, Waddon and Parish Church attended this photography course with their children. Over a period of six weeks they learned how to take a variety of picture styles, downloading and editing.

This was a very enjoyable Saturday morning activity which enabled many working parents to take part.

Family Learning Week - October 2009

Grandparents were invited into schools to share playground games they used to play, which sadly are now being lost. They shared lunch and bought a variety of games including skipping, marbles, and rhymes.

Pictured here two grandparents playing Oranges and Lemons

Families in the WIN Primary Schools had an opportunity to take part in African Drumming workshops. They found the drumming was fun, energising and inspirational appealing to people of different ages, backgrounds and abilities.

Pictured here: a dad enjoying the session at Howard Primary School

HOPE VOLUNTEERING

A group of students from St Andrew's School are serving their community in a number of ways. Some students visit the pupils at the Parish Church Schools every week by teaching Y2 to play the Ocarina, running a Cartoon Club for Y5 and supporting 'Huff'n'Puff' lunchtime activities in the Junior Playground.

Other students are helping at St Andrew's Church and visiting Ellis David Alms Houses.

This term students will also be visiting Victoria House to support lunchtime activities including and sharing books outside play.

The Bishop of Croydon dropped in to this Autumn's re-launch party which was a surprise for Head Girl and Boy at St Andre's High School

Summer Holiday Activities

The course was funded and organised by 'Film Club' sponsored by the Lottery Fund. Students worked with two professional musicians.

FILM CLUB - 3 Day Music Making Course July 2009

Students watched a film clip from 'Space Odyssey 2001' and 'Billy Elliott' (without the music or dialogue) and explored the emotions seen and reflected on how these could be expressed in music. They then divided into two groups. Each group worked on a composition for each film clip which they performed to friends and family on the final afternoon.

Gifted & Talented 6 Day workshop

*for students aged 10 - 15 at the Fairfield Halls -
August 2009*

The week's objectives were to develop and express individual student's creativity and enterprise through the range of workshops exploring a variety of media.

Students chose a theme which was based around Romeo and Juliet and developed it into a modern day adaptation focusing the issue of 'Gang Culture', that young people are facing today and how they can turn away from these pressures and support each other.

32 girls and boys produced an amazing show on the final day
